Summary

Motivated and detail-oriented Full Stack Developer with hands-on experience building scalable web applications using Python, Django, React, and REST APIs. Proven ability to design secure authentication systems, optimize application performance, and apply software development principles in real-world projects. Strong problem-solving mindset with focus on clean architecture, teamwork, and delivering reliable software solutions.

Experience

Python Developer Ssyn Technologies, Mumbai	Oct 2025 – Jan 2026
- Developed AI-based wellness features using Python, OpenCV, and MediaPipe for real-time emotion and stress detection. - Built backend modules to process user activity data, improving system response time by approximately 30%. - Debugged and optimized application logic, reducing runtime errors and improving system stability.	

Key Projects

GamingZone — Knowledge-Based Quiz Platform
- Developed a full-stack web application using Django and REST APIs supporting secure user authentication and quiz management. - Implemented JWT-based authentication and role-based access control to enhance system security. - Designed reward system and leaderboard logic, increasing user engagement and activity tracking. - Integrated PayPal payment gateway to handle secure online transactions. - Automated background tasks using Celery for notifications and reward processing.
PopDrop — Web UI Component Platform
- Built reusable UI components using React and Bootstrap to streamline frontend development workflows. - Designed REST APIs to support user subscriptions and content management features. - Developed responsive layouts optimized for mobile and desktop browsers. - Implemented analytics tracking to monitor user engagement and platform usage.

Technical Skills

Programming Languages:	Python, C, C++, C#
Frontend:	HTML, CSS, JavaScript, Bootstrap, React
Backend:	Python, Django, Flask, FastAPI, REST API Development
Databases:	MySQL, PostgreSQL, SQLite, MongoDB
Tools:	Git, Linux CLI, Celery, Postman, PayPal Integration
Core Concepts:	Software Development Principles, Debugging, Authentication, API Integration, Web Security
Soft Skills:	Motivated, Detail-oriented, Teamwork, Problem-solving, Time Management

Certifications

- Master in Full Stack Development — IT Vedant
- IBM Certification — Python, SQL, HTML, CSS

Education

Bachelor of Science (B.Sc.) in Information Technology <i>University of Mumbai</i>	2023 – 2026
Python Full Stack Development <i>IT Vedant</i>	2024 – 2025
Higher Secondary Education — Commerce (IT + Mathematics) <i>Tolani College of Commerce</i>	2021 – 2023
